**GENERAL LEDGER CHART OF ACCOUNTS – OPERATING EXPENSES**

**1. PURPOSE:**

To establish definitions for the Operating Expense section of the City University of New York (CUNY) General Ledger Chart of Accounts which have an **effective date of July 1, 2016**.

**2. BACKGROUND:**

The Chart of Accounts is the coding structure that defines CUNY’s operations in financial terms and serves as the foundation for the General Ledger and financial reporting. Accordingly, the General Ledger’s financial encoding structure and values (its “Chart of Accounts”) must be maintained accurately to ensure the integrity of the university’s financial reporting.

There are nine ChartFields that currently exist. The first four are standard across CUNY

- 1. Account
- 2. Fund
- 3. Department
- 4. Major Purpose

The next two ChartFields are College-specific and are defined by each individual college

- 5. Program
- 6. Funding Source

The final two ChartFields are CUNY-wide and will be used when required for specific transactions. They are

- 7. Operating Unit
- 8. Special Initiative

Procurement uses Category codes to classify and manage goods and services. When creating a requisition, a user must select the appropriate category code for the item being purchased.

Category codes have been mapped to *General Ledger, State Budget and New York City budget accounts*, see **pps. 5 - 74**.

**Capital Expenses**

**Accts. 55001 – 55007, 55010 – 55014, 55017**

A *Capital Expenditure* is the amount spent during a particular period to acquire or improve long-term assets such as property, plant or equipment.

A *Capital Asset* is a long-term asset that is not purchased or sold in the normal course of business. Generally, it includes fixed assets, e.g., land, buildings, furniture and fixtures, and equipment. The University accounts for these expenses as assets rather than as operating expenses, because they are resources that have extended useful lives.
