Proposed: Change in Course Title and Course Description for:

TAH 6500: Airport and Aviation Management

From: TAH 6500: Airport and Aviation Management

This course will impart to students a broad understanding of the air transportation industry and an appreciation of the major management functions within an airline and airport. The characteristics, scope and economic significance of airports and air transportation are explored in detail.

To: TAH 6500: Airport and Aviation Security and Management

A broad survey of the air transportation industry and management functions within airline and airport operations. The characteristics, scope and economic significance of airports and air transportation including an analysis of threats, security, are surveyed within the aviation industry. An examination of impacts of global aviation terrorism, and governmental measures to combat loss of life and property and sample airport terminal security programs are presented for analysis.

Rationale: After discussing the two courses with the instructor of TAH 6500 and TAH 6900, she felt that the content could be merged into one course, which would better serve the students enrolled in the program.
