RE:	Change in description for Network Server Administration (CIS 4500)

The Department of Mathematics & Computer Science is proposing a change in description for Network Server Administration (CIS 4500):

FROM:

An introduction to concepts of networking and administration. Students will be guided in installing, configuring, and administering Microsoft Windows. Server network operating systems. A computer laboratory is available for hands-on training sessions.

TO:

An introduction to concepts of networking and administration. Students will be guided in installing, configuring, and administering Microsoft Windows. Server network operating systems. A computer laboratory is available for hands-on training sessions. This course prepares students for the CompTIA Network+ certification exam.

Rationale for Change: Course is enhanced by the inclusion of appropriate preparation for the relevant credentialing exam. This is in keeping with the University's initiative to provide our students with the recognized micro-credential certification to enhance job readiness.
