- What was the one thing that impressed you the most about your CN experience?

*“One of the most impressive aspects of the College Now experience was how much of an impact it has on me because it gives me a sense of fulfillment and higher responsibility due to its demanding qualities. The program is also very inspiring and gives me hope that I will be able to excel in college because I get the college experience in high school and if I succeed here, I will do the same in college. Another impact was that, while the College Now program offers many prudent outcomes such as saving students money and allowing them to earn college credits, it has also helped me better manage my time because of the extra class that was added to my schedule. I learned how to better manage my time and was able to build my schedule, which allowed me to complete assignments on time.”* College Now Student, May 2021.
